ABOUT ALL STAR

All Star Children's Foundation is transforming foster care through innovation, science, and compassion. Representing over thirty years of commitment to child advocacy, Graci McGillicuddy established the Campus of Hope & Healing — a place where **healing occurs, hope is restored, and spirits are renewed.**

At All Star, we envision a world in which our most vulnerable children and families are **safe, valued, and empowered.** A world where they have access to valuable resources and support on their journey to overcoming the impact of adversity and trauma.

We have built an idyllic campus of six foster homes where licensed out-of-home foster parents live full-time. At the hub of our campus is a state-of-the-art Pediatric Mental Health Treatment and Research Center that houses a multidisciplinary team of professionals that are raising the bar for children placed in foster care to help them heal from life's traumas.
